

WORTH KNOWING WHILE YOU'RE GOING...

As the first arriving engine company, which handline would you choose to deploy- 1 ¾ or 2 ½?

Here's an easy acronym to help you decide when to deploy large caliber hose lines...

“A.D.U.L.T.S. use big lines”

A – Advanced Fire Conditions On Arrival (2 or more rooms)

D – Defensive Position

U – Unable To Determine Fire Area

L – Large, Un-Compartmented Floor Area (i.e. Commercial)

T – Tons Of Water Needed To Cool (Heavy Fire Loads)

S – Standpipe Operations
